

OBJAVLJENE PUBLIKACIJE:

- Haberle, I, Hrustić, E, Petrić, I, Pritišanac, E, Šilović T, Magić, L, Geček S, Budiša A, Blažina, M (2020) Adriatic cyanobacteria potential for cogeneration biofuel production with oil refinery wastewater remediation, *Algal Research* (in press)
- Blažina, M, Haberle, I, Hrustić, E, Budiša, Petrić, I, Konjević, L, Šilović, T, Djakovac, T, Geček, S (2019) Growth aspects and biochemical composition of *Synechococcus sp.MK568070* cultured in oil refinery wastewater, *Journal of Marine Science and Engineering*, 7, 164
- Budiša, A, Haberle, I, Konjević, L, Blažina, M, Djakovac, T, Lukarić Špalj, B and Hrustić, E (2019) Marine microalgae *Microchloropsis gaditana* and *Pseudochloris wilhelmii* cultivated in oil refinery wastewater – a perspective on remediation and biodiesel production, *Fresenius Environmental Bulletin*, 28 (2019), 11; 7888-7897
- Lukarić Špalj, B, Magić, L, Budiša, A, Haberle, I, Hrustić, E, Šilović, T, Blažina, M (2018) Cultivation of marine cyanobacteria and diatoms on refinery waste water, *Archives in Chemical Research*
- Magić, L, Parlov-Vuković, J, Konjević, L, Budiša, A (2018) An Overview of Algae Utilization for Waste Water Treatment and Biofuel Production, *Association for Promotion of Holistic Approach to Environment (Sisak)*
- Blažina, M (2019) Priopćenje: Znanstveno-popularna radionica “Mikroalge kao biogorivo budućnosti: Prilike i izazovi”, *Kemija u industriji* 68 (3-4) 143–150
- Budiša, A, Haberle, I, Konjević, L, Blažina, M, Djakovac, T, Lukarić Špalj B, and Hrustić, E (2019) A comparison between microalgae *Microchloropsis gaditana* and *Pseudochloris wilhelmii* cultivated in oil refinery wastewater from the perspective of biodiesel production, 8th International Conference on Clean and Green Energy (ICCGE 2019) Book of abstracts
- Budiša, A, Blažina, M (2018) Microalgae Utilizing Wastewater as Promising Candidates for Biofuel Production, 4th Edition of Young Algaeneers Symposium (YAS) Book of abstracts
